And that's not all!

Have you ever asked yourself, "Hey, I'm not that smart. What makes me quantified to raise a child?"

Now you don't have to, dummy! We offer free child enslavement services.

And that's not all!

Thanks to minimal government oversight, we're finally able to perform all sorts of dangerous experiments on your body and pass on those cost-savings to you!

## MORE MONEY

# GET THE MOST OUT OF YOUR FOOD RATIONS

**WORLD CLASS CHEFS AT THE HOOBA HOLE AND FLOP BUCKET RESTAURANT CHAIN ARE TEAMING UP WITH HOOBA-LABS TO PROVIDE ALL NEW FLAVORS!**

Are you tired of those same old dull flavored food bricks? For years, food bricks (a.k.a. "Hoo-Bars") only came in 2 flavors: cardboard and brick.

Not anymore!

While optimizing the nutrition content of our classic **Hoo-Bar™**, we've stumbled upon some interesting new flavors that

we're excited to offer our drones.

The newest additions to our flavor profile include:

- Meat byproduct
- Root
- Burnt ends
- Sour brown
- Bait

But that's not all!

Scientist drones have increased the caloric and amphetamine values. They now pack nearly twice as many calories into the same mouth sized **Hoo-Bar™**!

Now you'll be able to eat less and work more!

## Healthy Recipes

### "Pizza's not just for drone masters anymore!"

This recipe combines two of your favorite **Hoo-Bars™** (root and bait) for a crowd pleasing meal straight out of Italy!

- ▶ *Mix equal parts root and bait flavored Hoo-Bars in a 5 gallon vat of warm pigs milk.*
- ▶ *Allow 10 minutes for the Hoo-Bars to expand (between 8 to 10 times it's volume).*
- ▶ *After the mixture fully expands, use a corpse shovel (or any large shovel) and scoop the mixture onto a red hot cremation slab.*
- ▶ *Carefully crawl over the mixture and roll around until it flattens.*
- ▶ *Exit the slab before receiving too many 3rd degree burns.*
- ▶ *Allow 10 minutes to cook thoroughly.*
- ▶ *Peel off the "pizza" and enjoy!*

**"Mamma Mia!"**

Movie Studios  
Sector Presents:

Did you know that all sectors of Hooba Canoes Industries contain hidden microphones that record 24 hours a day?

HOOBACAST will provide a front-line glimpse into the world of everyday drones, torture masters, and every other creature living and/or dead.

Once we finish compiling the recordings and decide what to sell to the NSA and China, we'll prepare to beam the 1st broadcast directly into your thought-feed.

Stay tuned...

# CALENDAR

## July 17 - Register for our "Calories Count" course

Calories count, but does that mean you need to tediously track them to best manage your weight? Yes and it's mandatory. Remember, depending on your drone-type, you may have different calorie requirements.

Late one evening, we'll be waking you up in the middle of the night for a fun all-night calorie spreadsheet course that'll teach you all the tips and tricks of calories tracking. You won't want to miss this mandatory course!

For more information, please try really hard to remember your drone training. We already told you everything and you should remember.

## August 8 - Celebrity Basketballs Tournament

Watch former NBA stars Kwame Browns, Javaris Crittentons, Gilbert Arenass, and Metta World Peaces go 4-on-2 against celebrities Queen Latifahs and Billy Crystals.

## September - Vaccination Month

Productivity matters, so get your vaccination today! Remember, herd immunity is important. Throughout the course of your lifelong employment here, you will be working with the dead, dying, and diseased on a daily basis.

Even though you have already been vaccinated against most common viruses and diseases during your initial processing, HoobaLabs is committed to arming the military industrial complex with the latest weapons in germ warfare. In order to save on the cost of monkeys, beta tests are performed on certain segments of the drone population. Luckily these tests are completely anonymous, so you have nothing to worry about.

Vaccinations are offered in two convenient options. The first, and more traditional method is the shot. This is done via sniper drones located in the towers above you. To select this option, simply walk around during daylight hours.

The second option is a gentle spray that you can inhale. To select this option, simply walk into one of our local gas chambers and ask for the vaccination. Your voice will be picked up by one of the many microphones hidden in every room and the gas will begin to fill the room. Please be sure to speak clearly as the gas chambers also administer poisonous gas and farts.
